

The Learning Lamp Difference...

A high quality preschool or child care experience is within reach of every family. At The Learning Lamp, our programs are the best available— with certified teachers and a research-based early learning curriculum. Designed in partnership with schools, our classrooms prepare students to excel in kindergarten and beyond. Best of all— this great early learning experience is affordable for everyone. **Call us at (814) 262-0732 for details on our generous scholarship program!**

Quality preschool that's affordable for all families...

NOW ENROLLING FOR 2012-13!

She's Ready
To Take on
The World.

To Start, She'll
Need a Great
Preschool.

Why Choose The Learning Lamp?

All parents want a great first classroom experience for their child. At The Learning Lamp, we're working toward the same goal. Our classrooms are designed to offer an engaging

learning experience for your little one.

Our school day is centered around our research-based early learning curriculum: *Building Language for Literacy*. In addition to daily lessons focused on pre-reading skills, we offer a variety of hands-on activities, including art, math, science, music, and movement. Our program also offers an opportunity for children to grow socially and emotionally through cooperative learning activities, free play with peers, and lessons designed to teach the school readiness skills all children need to succeed in kindergarten.

Did you know that a family with two children can earn up to \$70,000 a year and still qualify for scholarship help?

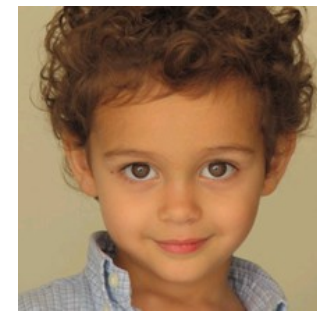

Academic excellence you can afford

Scholarships are now available for the 2011-12 school year thanks to the generous donations of area businesses. Many families are eligible. Interested? Please call us at (814) 262-0732 for a scholarship application. Our goal is to make quality preschool affordable for every family.

"The Learning Lamp provides a wonderful social, educational and fun environment for my son. The teachers are patient and helpful and he has developed many friendships with the other students. My son loves school because of them and this wonderful program. I would recommend it to everyone."

—Minde Yorbak, Richland

The Learning Lamp offers preschool in Cambria, Bedford and Somerset Counties. Each program is uniquely designed to meet the needs of the community it serves. For details on the preschool nearest you, please call us at (814) 262-0732.
