

Quality tutoring that's *free* and *convenient* for you!

Now Available at Your School!
Call (814) 262-0732 or 1-866-785-LAMP (5267)

At The Learning Lamp, we believe all children should have the opportunity to succeed in the classroom. That's why we're partnering with public schools to make tutoring cost-free and convenient for you.

Our PA certified teachers work with your child in a one-to-one setting, identifying and closing skill gaps, and reinforcing lessons taught during the school day. Instruction is customized to meet your child's specific needs.

Our curriculum is research-based and aligned with PA academic standards. Our teachers are highly qualified and work closely with your child's school. And if your

child needs tutoring beyond the school year, we'll work with you to continue services.

In addition, we offer tutoring at a location near your home or your child's school, with tutoring sessions scheduled around your family's commitments.

If you want a tutoring program that focuses only on the needs of your child, call us.

Questions to Consider when Choosing a Tutor

Parents who take that extra step to enroll a child in tutoring should ask questions before choosing a tutoring provider. You want to be sure you are selecting a quality program that is right for your child. Here are some questions suggested by the PA Department of Education:

- What credentials/certifications do the tutors have?
- Will my child have the same tutor each time?
- How long has the program been in operation?
- What is the achievement history of the program?
- How does the program measure student success?
- Does instruction take place one-on-one or in small groups?
- What is the cost?
- Is the instruction relevant to what takes place in the child's classroom?
- Can you, the parent, observe a tutoring session?
- How will the child's needs be evaluated?
- How often will the tutor provide information about the child's progress?

"The Learning Lamp tutor taught our son so many important things and made a connection with our son that has made such a difference in his academic life. Our son's English grade started out as a 51%. After working with the tutor for only three weeks, his English grade was an 82%. Thank you so very much for finding such a wonderful teacher for my son. I really appreciate all The Learning Lamp has done for us."
—Parent, Somerset PA

At The Learning Lamp, we're lighting the way to a brighter future for Pennsylvania's children by providing high quality tutoring that's affordable and accessible to all.

We are a nonprofit agency that works in partnership with 50 school districts in Pennsylvania, offering one-to-one and small group tutoring, and after school programs with supervised homework help by certified teachers.

The Learning Lamp is a Pennsylvania Department of Education-approved Supplemental Education Services (SES) and Educational Assistance Program (EAP) provider.

We work in partnership with schools and families to build tutoring and after school programs that make a measurable difference in student achievement.
