Why should you choose The Learning Lamp for your child's first school experience?

To take on the world, your preschooler needs a solid foundation for learning. So for his or her first classroom experience, why would you choose anything other than a school that has a proven capacity for quality education?

The Learning Lamp is a Pennsylvania Department of Education-licensed program that offers a great first learning experience for your child.

Our preschools meet national and state quality standards for early learning. Our curriculum, *Building Language for Literacy*, will help your child build the pre-reading skills he or she needs to succeed in kindergarten and beyond. Beginning math and science activities supplement our literacy-based curriculum.

Our highly qualified and caring teachers include lots of hands-on

activities, songs and opportunities for play that keep your child actively engaged in the classroom experience.

Generous scholarships are available for children attending our programs for ages 3 and 4. We also offer a socialization program for 2-year-olds and extended day preschool and kindergarten at our Westmont, Memorial Medical Center, GJCTC and Scalp Avenue locations.

Child care subsidy is available for income-eligible children attending the extended day program.

To schedule a tour or for more information on any of our locations, call us at 262-0732.
