PROVEN PREVENTION FOR MIDDLE SCHOOL STUDENTS

Growing up can be risky business. Results from the Pennsylvania Youth Survey show that one in six 8th graders in Cambria County have used alcohol in the past month. By 10th grade more than half of students admit to having tried alcohol.

Botvin LifeSkills®Training (LST) is an evidence-validated substance abuse and violence prevention program for children. LST has been proven to reduce alcohol use in participants by 60 percent, marijuana use by 75 percent and tobacco use by 87 percent. It’s also been shown to cut verbal/physical aggression, fighting and delinquency in half.

Funded by grants from United Way of the Laurel Highlands and Cambria County Drug and Alcohol Program, The Learning Lamp can provide LST FREE to your students. Our team of prevention specialists will deliver the program with fidelity and flexibility. LST can also be used to help your school meet PA Department of Education Standards in Health, Safety, and Physical Education; Family and Consumer Science; English and Language Arts; and Student Interpersonal Skills.

Program Learning Objectives
