For the 12th Annual Children’s Book Festival of Johnstown

Pick something to put in the middle—maybe your favorite animal, sport, or thing.

Next, write things that your middle word makes you think of in the smaller bubbles. The next step is to add more bubbles and words that relate to your topic. The words may help you build a story. On the back write your characters, setting, and conflict. Decide what will happen first, second, and last.
